Report on 3 days seminar on Different fields of Research in Ayurveda (Online)

Month: 13-15 September 2021

Topics covered during the sessions of the Seminar:

1. Different fields of Research in Ayurveda
 - Fundamental Research in Concept of Ayurveda
2. Drug research (laboratory-based) _Basic knowledge for the following:
 - Drug sources: plant, animal and mineral. Methods of Drug identification
 - Quality control and standardization aspects: Basic Knowledge for pharmacopeial standards and parameters as set by ayurvedic pharmacopoeia of India.
 - Information for WHO guidelines for standardization for herbal preparations.
 - Good manufacturing practices (GMP) and Good laboratory practices (GLP).
 - Correlation and regression analysis:
Concept, properties, computation and applications of correlation, Simple linear correlation, Karl Pearson's correlation co-efficient, Spearman's rank correlation.
Regression- simple and multiple.

No. of students participated: 69

25/10/2020

Report on 3 days seminar on Literary Research

Month: 21-23 October 2020

Topics covered during the sessions of the Seminar:

1. Literary Research

- Introduction to manuscriptology: Definition and scope. Collection, conservation, cataloguing. Data mining techniques, Search method for new literature; search for new concept in available literature. Methods for searching internal and external evidences about authors, concept and development of particular body of knowledge.

2. Introduction to latest Trends in Drug discovery and Drug development.

- Brief information on the latest trends in the Drug discovery process.
- Brief information in the latest trends in the Drug Discovery process through employment of rational approach techniques; anti-sense approach, use of micro and macro-array, use of concepts of system biology and network physiology.
- Brief introduction to process of Drug Development

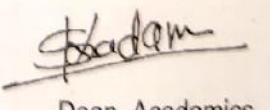

Sampling and Sample size computation for Ayurvedic research:

- Population and sample. Advantages of sampling, Random (Probability) and non-random (non-probability sampling)
- Merits of random sampling. Random sampling methods- simple random, stratified, systematic, cluster and multiphase sampling. Concept, logic and requirement of sample size computation, computation of sample size for comparing two means, two proportions, estimating mean and proportions.

No. of students participated: 54

15/11/2020

Report on 3 days seminar on Clinical research

Month: 12-14 November 2020

Topics covered during the sessions of the Seminar:

1. Safety Aspects:

- Protocols for assessing acute, sub-acute and chronic toxicity studies. Familiarization with AYUSH guidelines (Rule-170), CDCSO and OECD guidelines.

2. Clinical research:

Introduction to clinical research Methodology identifying the priority areas of Ayurveda basic knowledge of the following:

- Randomized Control Trials (RCT) & their types
- Single-case design, case control studies, ethnographic studies, Black-Box Design, Cross over Design, Factorial Design.
- Error and Bias in research
- New Concept in clinical trial-Adaptive clinical trials/ Good clinical practices.
- Phases of clinical studies: 0,1,2,3, and 4.

Survey Studies: Methodology, types, utility, and analysis of Qualitative Research Methods.

Concept of in-depth interview and focus group Discussion.

- **Vital statistics and Demography:** computation and applications - Rate, Ratio, Proportion, Mortality and fertility rates, Attack rate and hospital-related statistics
- **Familiarization with the use of Statistical software** like SPSS/Graph Pad

F No D-20005/5/1/2011-AIIA/3396

Dated 25 January 2020

OFFICE ORDER

Systematic methodologies help in regaining the lost knowledge, revalidate the facts embedded, expands the area of knowledge and disseminates potentiality in front of global population. This further help in advancement of the system in new directions and also generate knowledge base for easy understanding by the western medical sciences. This aspect is equally applicable to Ayurveda. To fulfil this and strengthen the understanding of new strategies and methodologies by Ayurveda scholars; AIIA, New Delhi is **conducting Sensitization program in Research Methodology** for its Post Graduate Scholars in two batches during 27th January to 1st February 2020. Participants in each batch will be trained for three days.

- ✓ Participation in the program is mandatory for all the first year (2019 admitted batch) scholars, who have been grouped into two after the consultation with respective departments.
- ✓ Scholars are requested to confirm their batches (Annexed) and attend the event without fail.
- ✓ The sessions are scheduled to be started from 9 AM onwards and you are requested to meet the timelines.
- ✓ The sessions will be conducted in the First Year PG class room (Academic Block, First Floor)
- ✓ When one batch of the scholars are in the program; the second batch scholars will remain in their respective departments.
- ✓ Regular classes during the period will be suspended.

Prof Tanuja Manoj Nesari
 Director

Copy to:

1. All HoDs with a request to disseminate the information among their scholars and depute them to attend the program in batches.

Training in "Sensitization Program in Research Methodology" for Post Graduate students of All India Institute of Ayurveda, Delhi
Venue: All India Institute of Ayurveda, Delhi
Agenda (Jan 27 to 29 2020/Jan 30-Feb 1 2020)

Day 1

Time	Topic	Faculty
09:00- 10:00	Registration	
10:00 - 11:00	Research spiral and general structure of a research proposal	Tanica Lyngdoh
11:00 - 11:15	Tea	
11:15 - 13:00	Overview of epidemiological (observational) study designs	Tanica Lyngdoh
13:00 - 14:00	Lunch	
14:00 - 15:30	Overview of experimental study designs	Tanica Lyngdoh
15:30 - 15:45	Tea	
15:45 - 17:00	Formulating a research question and general structure of the background	Tanica Lyngdoh

Day 2

9:30-11:00	Overview of concepts on basic biostatistics	Tanica Lyngdoh
11:00-11:15	Tea	
11:15-13:00	Key components of the method section	Tanica Lyngdoh
13:00-14:00	Lunch	
14:00- 15:30	Literature review and referencing (Demonstration of Pubmed & Zotero)	Preeti Negandhi
15:30-15:45	Tea	
15:45-17:00	Questionnaire development and data management	Preeti Negandhi

Day 3

9:30-10:30	Overview of sampling method and sample size calculation	Tanica Lyngdoh
10:15- 11:15	Considerations for writing the result and discussion section	Tanica Lyngdoh
11:15-11:30	Tea	
11:30- 12.30	Ethical considerations in research	Tanica Lyngdoh
12:30-13:00	Research misconduct and plagiarism	Tanica Lyngdoh
13:00-14:00	Lunch	
14:00-15:30	Participant synopsis preparation & (Q& A)	Group work
15:30-15:45	Tea	
15:45-17:00	Participant synopsis preparation & (Q& A)	Group work

Sensitization Program in Research Methodology

For Post Graduate Students of All India Institute of Ayurveda, New Delhi

Jointly Organized By

All India Institute of Ayurveda, New Delhi and Indian Institute of Public Health-Delhi

Sponsored by Ministry of AYUSH, New Delhi

27th January 2020 to 29th January 2020

Participant Feedback form

This feedback has 3 sections:

Section 1: Questions related to the individual session in the workshop

Section 2: Questions related to workshop as whole

Section 3: Remarks / Comments

Section 1: Feedback on sessions

These questions pertain to the quality of each session. Please put your score in the table below according to your assessment in 3 aspects as follows

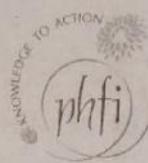

1. Overall, for me this session contents were useful (5 indicates the session was most useful and 1 indicates it was not useful at all)
2. Over-all, the facilitator/presenter discussed the subject matter well (5 indicates that the session covered most essential points and 1 indicated not covered adequately at all)
3. Overall the session was engaging and interactive (5 indicates the session was very engaging and 1 indicates not engaging at all)

(5- excellent; 4= good; 3= satisfactory; 2= fair; 1=poor)

Topic	1. Usefulness of content	2. Presenter	3. Interactivity
Research spiral and general structure of a research proposal			
Overview of epidemiological (observational) study designs			
Overview of experimental study designs			
Formulating a research question and general structure of the background			
Overview of concepts on basic biostatistics			
Key components of the method section			
Literature review and referencing (Demonstration of Pubmed & Zotero)			
Questionnaire development and data management			
Overview of sampling method and sample size calculation			
Considerations for writing the result and discussion section			
Ethical considerations in research			
Research misconduct and plagiarism			
Participant synopsis preparation & (Q& A)			

(5- excellent; 4= good; 3= satisfactory; 2= fair; 1=poor)

Report on

Sensitization Program in Research Methodology

The current education system understands the relevance of research during medical training and its value in career progression. Thus, an effort to boost and foster research culture all AYUSH Post Graduate students are obligated to carry out a dissertation project as a part of their curriculum. Thus, to further capacity building for research initiatives and facilitate conduct of their dissertation work, the All India Institute of Ayurveda (AIIA) was seeking the support to conduct a short term training for Post Graduate Scholars at AIIA, New Delhi. The overall aim of this workshop was to enable the Post Graduate Scholars to develop quality synopsis and proposals.

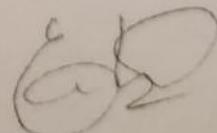

A proposal on sensitization program in Research Methodology was proposed by All India Institute of Ayurveda, New Delhi that was approved by IEC section of Ministry of AYUSH, New Delhi and an amount of Rs. 10,00,000/- (ten lakhs only) was sanctioned.

Initially it was planned to invite expert from different fields who can share their expertise with the participants. But, later considering the activities on Indian Institute of Public health (IIPH) that activity engaged to create a public health workforce that responds to the felt needs of the country; they were approached to conduct the sensitization sessions at All India Institute of Ayurveda, New Delhi.

IIPH has a rich tradition of pursuing academic excellence, value-based education and providing a conducive environment for overall skill development. In addition, IIPH has an experience of training AYUSH professionals since long and trained more than 100 Research officers of CCRAS in the 2019.

Considering the request of AIIA, New Delhi; IIPH, New Delhi accepted and conveyed of conducting sensitization program in Research Methodology for Post Graduate Scholars in two batches during 27th January to 1st February 2020. Participants in each batch were trained for three days. The program was conducted by three faculty members from IIPH, New Delhi namely Dr Tanica Lyngdoh, Dr Preeti Negandhi and Dr Rubina Manchandani.

Participation in the program was mandatory for all first year scholars (2019 admitted batch), who were grouped into two (29 participants in each batch) after the consultation with respective departments. (Annexure-1) The sessions were conducted in the First Year PG class room (First Floor, Academic Block) and were scheduled to be started from 9 AM. When one batch of scholar were in the program, the second batch scholars were remained in their respective departments. Regular classes for First Year during the period were remained suspended.

The learning objective of the workshop was that, at the end of training, the participants will be able to:

- Formulate a research question and justify the need for that research.
- Identify the key aspects in the design and conduct of research involving human participants.
- Understand and discuss all the key components required for synopsis submission.

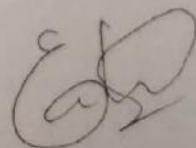

Contents of workshop

- Formulating a research question: Key components of a research question
- Background: Structure of background for a given design and research question, presenting previous literature, identifying gaps in literature and justifying the objective of your research.
- Literature review and referencing: PubMed and reference management system.
- Methods: Introduction to epidemiological designs, overview of important epidemiological concepts, overview of basic biostatistics, sample size estimation and sampling methods in conduct of research.
- Data collection: Types of data collection tools, developing a questionnaire or CRF based on research objective, use of dummy tables.
- Ethical considerations: Ethical considerations in research proposal.
- Data analysis: Structure the result, effective use of tale and graphs, descriptive results and analytical results.
- Research misconduct and plagiarism: Types of research misconduct and plagiarism and its implications.

Hands on training over synopsis preparation and literature review was also conducted during the sensitization program.

After registration, sessions were conducted on the themes below: (Annexure-2)

Day 1	<ul style="list-style-type: none"> • Research spiral and general structure of a research proposal • Overview of epidemiological (observational) study designs • Overview of experiment study designs • Formulating a research question and general structure of the background.
Day 2	<ul style="list-style-type: none"> • Overview of concepts on basic biostatistics • Key components of the method section • Literature review & referencing (Demonstration of PubMed & Zotero) • Questionnaire development and data management
Day 3	<ul style="list-style-type: none"> • Overview of sampling method and sample size calculation • Considerations for writing the result and discussion section • Ethical consideration in research • Research misconduct and Plagiarism • Participant synopsis preparation (Q&A)

At the end of the event, all the participants were given with feedback form (Annexure-3) for their opinion on the event. The anonymous feedback is:

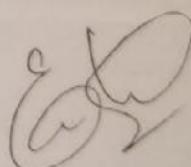

- ✓ The Individual sessions were good
- ✓ Overall feedback about the workshop content and methodology, in the scale of 1 to 5 majority of participants have rated between **4 and 5** (5 indicate the maximum usefulness)
- ✓ Majority of the participants liked the faculty interactions, the queries were well attended
- ✓ Majority of the participants were happy with the learning from this workshop and enable to write their protocols clearly
- ✓ All the participants were satisfied with the clarifications to their queries and adherence to the time table.

Participants' Speak (*anonymously*):

- ✓ "This is very useful for my synopsis preparation, thesis preparation and for exams, I learned that how to perform a research"
- ✓ "I sincerely thank the faculty for her Methodius and excellent teaching. This workshop made my concepts clear about research. It was a great opportunity and experience"
- ✓ "This workshop made my concepts of basic research and statistics more clear. This workshop gave me confidence to try and conduct research in scientific manner. Statistics explained in a very simple and interesting manner"
- ✓ "Sessions made the concepts very clear understanding of research. This learning will reduce the chances of errors in my thesis"
- ✓ "Being a PG Scholar of 1st year the sessions were indeed a lot useful, the classes really helped a lot in clearing the basics"
- ✓ "This workshop is really well planned and extremely well executed"

Suggestions by participants:

- It was mentioned by majority of participants to organize such workshops for longer duration.

1	Department Name/ Cell / Committee	Roga Nidan Evum Vikriti Vigyan
2	Title of the event	Covid sample collection and management
3	Nature of the event	Good clinical lab practices
4	Level (Institutional/university/ inter-university/ state/national/ international)	Institutional
5	Date and Time	26/05/2020 from 2 PM to 3 PM
6	Place or online mode	Clinical pathology laboratory
7	Resource Person(s) / Expert(s)/ Guest(s)	Mr. Sunit Sharma
8	About Resource Person(s) / Expert(s)/ Guest(s)	
9	Who are Participants	Laboratory staff and P.G. scholars
10	Number of participants	06
11	Attendance sheet	Attached
12	Under which scheme	Good clinical lab practices
13	Collaborative agency Government / Govt recognized body	Institution
14	Sponsoring Agency	AIIA
15	Which Grant utilized	Institutional
16	Expenditure	Under the Good clinical lab practices
17	Objectives (Expected outcomes)	Knowledge and competence on good clinical laboratory practices
18	Is it part of National drive?	No
19	Number of sessions	01
20	Content of the event	Information related to Covid sample collection and its management
21	Activities / Process	Demonstration & hands on.
22	Integrating issue/s	Proper sample collection & its management without causing harm to any concerned.
23	Achieved Outcomes	Training program was very informative as per the inputs from the participants
24	Infrastructure utilized	Clinical pathology laboratory
25	Certification to participant (Sample)	NA
26	Feedback with Analysis-Graphs	NA
27	Scope of improvement / Future event / plan	More such future events to be organized
28	Photographs of activities with captions	Not done
29	Media Coverage	Not done
30	Report submitted/ sent to	NABH & CPL
31	Award / Recognition for the event	NABH
