iThenticate:

For a researcher, being able to get published is the means to excel in their career, grow their reputation, and attract more funding going forward. iThenticate has a folder-based workflow and an unparalleled scholarly content database that allow to protect the high stakes work from potential plagiarism, and thus, the reputation of the researchers and institutions from being destroyed. It's also being used by the top publishers across the globe. That gives researchers extra confidence and boosts their chances of acceptance because they are checking their work for similarity with the same tool that their desired publishers do.

iThenticate
- Publish with confidence   - Protect individual and institution Reputation   - Streamline the screening and validation of the research   - Provide a justified decision on the originality of the scientific/scholarly work   - Collaboration and manuscript management

Key capabilities:

iThenticate allows instructors and researchers to easily organize manuscripts, check their own and their PhD students' works, share them with co-authors, collaborate, and polish their collective works effectively. High stakes research works don't end up in a global repository (not being indexed), so they are kept safe before being actually published.

iThenticate :
• Easy to organize and store multiple documents folder structure ● Easy document upload ● Folder sharing for easy collaboration ● Rights and permissions management ● Data privacy & security (submissions don't get indexed into Tii's global database) ● API integration with flags for at-a-glance ● Flag Panel to detect irregular characters ● Add SSO configuration -Google and Shibboleth ● Search for text within the document text in the report ● Zip File - 100 file capacity

Content database

iThenticate allows to scan submissions against an unparalleled database of scientific work including Crossref (the biggest global researchers and publishers organization), ProQuest dissertations and theses (an extensive collection of over 1 million scientific research papers across industries that the world's universities contribute to each year), Al Manhal (world's only provider of Arabic full-text searchable databases of scholarly and scientific publications from the Middle East, Africa & Asia), indexed and current Internet resources.

iThenticate
• Crossref repository
• Crossref Posted Content
• 47 Billion current and archived web pages
• Subscription articles - 190 Million
• 97% of top 10,000 Journals
• 50 Million pages added daily and 300 millions pages crawled and updated daily
• Organization's indexed repository of research/scholarly works
• ProQuest dissertations and theses > 1 million
• Al Manhal repository

Hello Sir ,

Thank you for your email .

Firstly , festive greetings from Turnitin to you and all the members at AIIA.

Sir , we deeply value our long standing relationship with your prestigious organization.

Sir , as you are aware that we as an organization also needs to cover lot of expenses each year
like- Data Centers, Content Upgrades, Application Enhancements etc. which are of utmost essential
importance so that our services are in turn able to provide the highest level of confidence to our
customers hence , to maintain that there is a standard increment in the prices every year which is
10% this year but still owing to our long standing relationship we have only kept the percentage
hike to 5 % .

We would also like to share that these prices are only valid for running subscriptions , for a new
subscription with the same terms and conditions the prices would be 20-25% higher next year.

Also , sharing the list of users for your reference. The list shared is a 4-5 months older version ,
there might be some updates in the list but more or less it can be relied on.

In case of any other query , please let us know.

Warm Regards,
