**Certificate Course on
Cultivation and Propagation of
Ayurveda Herbs**

22-26th

September

2025

Department of Dravyaguna

All India Institute of Ayurveda

New Delhi

About the Institute and Department:

All India Institute of Ayurveda (AIIA) is an autonomous institute under Ministry of Ayush, Government of India. The institute aims to create a synergy between the traditional wisdom of Ayurveda and modern scientific tools and technology. AIIA offers postgraduate (PG) and doctoral (PhD) programs in various Ayurveda disciplines. The institute provides high-quality Ayurvedic healthcare services through OPD and IPD, offering specialized treatments and therapies. Department of Dravyaguna at AIIA is involved in fundamental research, drug development, standardization, quality control, safety evaluation, and scientific validation of Ayurvedic classical & contemporary formulations along with pioneering research publications. Department is developing Regional Raw Drug Repository (RRDR) funded by NMPB, which play a stellar role in collection, documentation, and authentication of raw drugs collected largely from trans ganga plains covers four states -Haryana, Chandigarh, Delhi and Punjab, herbal garden, and herbal cosmetology unit.

About the cultivation and propagation of ayurveda herbs:

This comprehensive course offers insights and hands-on training in Ayurvedic herb cultivation, covering soil evaluation and testing, bio manure preparation, and advanced propagation methods like grafting, layering, and tissue culture. This course offers modern and traditional *Vriksha Ayurveda* techniques, Good Cultivation Practices (GCP), and sustainable harvesting methods.

About the Training Program:

The training program is specifically designed for Ayurveda postgraduates and PhD scholars to provide them with practical knowledge in cultivation and propagation of Ayurvedic herbs.

Participants will benefit from the expertise of seasoned professionals through interactive sessions and hands-on training. Additionally, the trainees will have the opportunity to work with various aspect of cultivation and propagation techniques.

Hand on training and demonstration will be provided on following area

- Soil evaluation technique
